You never know when it might happen: love might be right around the corner, down the block, or across the aisle from you on your next flight. Stories of how people met are endlessly fascinating and they remind us that we all need to be ready for anything, including meeting the love of your life when you least expect it. After a devastating break up, Broadway composer and beloved songwriter, David Friedman, embarked on a decade-long journey collecting couple’s stories of “how they met” as a therapeutic project.

What Friedman learned was utterly surprising - there was always an element of serendipity—planning had nothing to do with it. Along the way, what started out as a path to moving forward became a mission to better understand matters of the heart. In this study of how people found true love, Friedman talks to people from every walk of life, from devout churchgoers to same-sex couples to celebrities. Among others, How They Met shares the right-time-right-place story of how Lucie Arnaz met her famous husband, Laurence Luckinbill, and the unexpected tale of Kathie Lee and Frank Gifford’s friendship blossoming into romance.

Sometimes funny, oftentimes moving and always surprising, How They Met will have you believing that love will find YOU.

Rock On: Mining for Joy in the Deep River of Sibling Grief is about love, loss, grief, and the journey toward hope and reclaiming joy. On Valentine's Day, 2014, she learned of the horrific and unexpected death of her forty-three-year-old brother Rocky (birth name: Brian) who died while in Hong Kong with his wife and three-and-a-half-year-old daughter. Susan shares her journey, capturing the bond between her and her brother, the shock over his sudden death, and the emotional three-week trip to Asia. When Susan returned home, she was faced with unimaginable grief. In her effort to heal, she interviewed others all over the world that had lost a sibling. Brothers and sisters shared their stories with a vulnerable and open heart, and these stories helped to nudge Susan, step by step, out of the deep river of grief.

As she listened, a deeper healing took place, anchoring Susan's belief that loving and losing far outweigh never loving at all. The stories segue into excerpts from the people she talked to that are relevant to the theme of each chapter. Susan weaves in her memories throughout each story and ends each chapter with her thoughts on the chapter's theme to provide additional insights to help the reader on their grief journey. Susan's story and the stories of other people who lost a sibling explore the resiliency of the human spirit after a tragic loss and how their sibling's death impacted their lives.

What makes a superhero "super"? Is it the power to endure? The will to stand up for what is right? Or is it the courage to conquer fear and the ability to overcome adversity? In the real world, superheroes exist and they are all around us. And much like the comic-book heroes we grew up with, real-world superheroes were once average people who faced adversity and conquered it. They discovered their power and became something more; they stood strong in their truth and became a "super" version of themselves. We all want to have that "superpower," the power to control our own destiny, to be independent, strong and to kick ass at accomplishing our goals and achieving our dreams. But many of us feel as if we could never attain it as if we had lost our power, our inner strength and our ability to control our own destiny. We feel as if a tragedy, an event or another person have robbed us of our abilities and left us hopeless, struggling to regain control and becoming the person we used to be. We watch other people grow into their super-selves and quietly whisper the words, "I wish..." Well, it's time to change that.

By combining the powers of fitness and self-awareness activities, *Girls with Sole* will guide you through the process of reinventing yourself and unleashing your inner superhero. It will provide you with the tools to becoming a badass, rock star, super version of yourself. *Girls with Sole* shows you how to further develop and unleash your gifts into the world and take real-world steps towards becoming the fit and fierce person you want to be. What do life, self-reflection, and writing all have in common? They are messy! Therefore, it is fitting they are woven together in the exercises of this book. The act of writing slows the thought process so the writer can explore memories and pivotal moments. Reflection and giving oneself permission to write what needs to be written lead the writer to a place of enlightenment. This self-knowledge brings power to the writer who is ready to embrace the wisdom generated by their unique life story.

Anne and Lisa met over ten years ago while co-facilitating at the Pennsylvania Writing Institute. Their mutual passion for writing and teaching caused them to quickly form a friendship. Several years later, they combined their talents to help guide writers through exercises of renewal in their workshops and writing course. After requests for more, Anne and Lisa assembled this collection of writing exercises. Through their own words and the words of others, the pages of this workbook came to life with the hopes of guiding others to explore, enlighten, and embrace the messiness of who they are by seeking healing through writing. If you picked up this book, it's time to pick up your pen and become the owner of your own life story. You are ready to begin a powerful journey. It is time to Write Through the Mess!

As the fable goes, the Gods all got together to decide where they were going to hide the secret of life from Man. The first God said, "Let's hide it up in the sky. Man can't fly so he won't be able to get to it there." The second God said, "Let's hide it at the bottom of the sea. Man can't breathe underwater, so he won't be able to get to it there." Then, the third, and wisest God said, "I have an idea. Let's hide the secret of life right inside Man himself. He'll NEVER think of looking for it there!"

For so many of us, we have spent years looking for success and fulfillment everywhere but where they can actually be found. Inside of ourselves. There is nothing to attract. Nothing to target. Nothing to achieve. All we have to do is Notice what has been there all along, inside of ourselves. And the moment we do that, the physical world, which is nothing more than a mirror designed to reflect back to us what WE are thinking, MUST reflect what we are thinking. In fact, it's doing that right now. In this third book in *The Thought Exchange Series*, David fulfills his readers' and students' request for a simple workbook of step by step exercises in which we can understand, on an Experiential level, that EVERYTHING we could ever want we already have inside.

How many times in the course of our New Thought studies have we heard phrases such as "Think POSITIVE", "CANCEL those NEGATIVE thoughts!" and "Don't think NEGATIVE thoughts or NEGATIVE things will happen!" And how many times, as students and seekers of health and happiness, have we found ourselves unable to stay with that "Think Positive" philosophy and instead, thinking "There's something wrong with me, I'm just not doing it right."

Could it be that by trying to get rid of our "NEGATIVE" thoughts and "UNCOMFORTABLE" sensations, we are, in fact, suppressing, ignoring and avoiding one of the greatest tools we have for healing and living a full life? In this revelatory new book, David Friedman looks directly at our "NEGATIVE" thoughts and "UNCOMFORTABLE" sensations and reveals them not as things to be feared or ignored, but rather as messages from our past, tools we can use to heal any long-avoided traumas and discomforts that arise whenever we try to "think positive".

How to Draw Cool Stuff: Basics, Shading, Texture, Pattern and Optical Illusions is the second book in the *How to Draw Cool Stuff* series. Inside you will find simple illustrations that cover the necessities of drawing cool stuff. Specific exercises are provided that offer step-by-step guidelines for drawing a variety of subjects. Each lesson starts with an easy-to-draw shape that will become the basic structure of the drawing. From there, each step adds elements to that structure, allowing the artist to build on their creation and make a more detailed image. Starting with the basic forms, the artist is provided a guide to help see objects in terms of simplified shapes. Instructions for shading to add depth, contrast, character and movement to a drawing are then covered.

The varieties of texture and pattern that can be included in an artwork offer another layer of interest and depth to a design. These elements are necessary to indicate the way something looks like it feels in a work (texture) or creating the repetition of shapes, lines or colors (patterns). Illustrated optical illusions involve images that are sensed and perceived to be different from what they really are, showing examples of how the mind and the eyes can play tricks on each other. All you need is a piece of paper, a pencil and an eraser and you are ready to draw cool stuff. Once the drawing is complete, it can be colored, shaded or designed in any way you like to make it original. Following these exercises is a great way to practice your craft and begin seeing things in terms of simple shapes within a complex object.

Each of us has a story. Each of us is unique. Heart Prints encourages teachers to open their hearts and eyes to each of the students in their classrooms. It reveals the realities of the classroom when a teacher realizes that each person has a story to tell and each person has a voice to be heard. This work is a story of connections, success, heartbreak and love. It is an impassioned call to learn to teach, love and speak with your heart to change your life. This book is filled with honesty, despair, victories and tears. Through my voice as a teacher and my students' voices, we reflect on our time together and the way our connections are illuminated through Heart Prints; a story filled with hope. My story was difficult to write because it was not just my story.

My family, my students, and my fellow teachers became an integral part of my daily life. Our lives were so intertwined, it was impossible to separate them. Heart Prints is that story—our story. After I became a Freedom Writer teacher in July of 2007, my life as a teacher changed more than words can describe. Erin Gruwell showed me how to teach with my heart so that the rest will follow. I learned how to 'put myself out there' so that my students would learn to trust me. I learned that sometimes the hardest stories—the ones that tear us up and spit us out—were the ones that made us stronger.

New Thought, Happiness Self-Help

S U M M A R Y

With the proliferation of books like “The Secret,” we now know that what we think appears in the world as what we see there. So how come we’re having such a hard time holding the thoughts we want to hold? How come we take on a positive thought only to find, moments or days later, that we’re back to the same old thought and seeing the same old results we’ve always seen.

In this groundbreaking book, David Friedman gives us the missing piece, the real secret to identifying the underlying thoughts we’re actually thinking, exchanging them, and being able to stay with them and see the results we’ve always wanted to see but never knew how to achieve.
